DISTRICT COURT HEARINGS. Bids on New Academy Building Accepted-Work Will be Pushed. Special Correspondence. Provo, Utah Co., June 29.—The case of Filsha Peck Jr., vs the Oregon Short

Line Railroad company, is now being heard in the Fourth district \*court. Plaintiff sues for \$25,000 for personal injuries, and for \$190 for killing two horses and damaging plaintiff's wagon in the northeast part of Lehi, December 4th, 1899. Defedant's hurt consist of injuries to his hip, spine and breast, which are alleged to be perma-

character, and to have been received through an engine of the defendant company striking plaintiff's yehicle, in which he was crossing the rallroad track at the time, and place above mentioned. Negligence is charged against the defendant company in failing to give any signal of the approach of the engine, which plaintiff was unable to see on account of a house and a grove of trees near the crossing) and by running the engine at a greater rate of speed than provided by the ordinances of Lehi City.

The defense is a general denial of all of the allegations of the complaint. The case was tried in July of last year, when a verdict was rendered for plaintiff in the sum of \$5,284; a trial was granted on motion of defend-There are many witnesses to examine and a stipulation has been made between the attorneys, that either side may read in evidence the testimony given at the former trial, and this is

TOUCHING FUNERAL RITES. Obsequies Over Remains of Little Christy Dell Creer.

Special Correspondence. Spanish Fork, Utah Co., June 28.-This afternoon at 4 o'clock funeral services were held over the remains of little Christy Dell Creer, daughter of Mr. and Mrs. Willard O. Creer of the Second ward of this place. The gathering was unusually large both on account of the prominence of the family and of the sudden taking away by accidental killing of the deceased child. Bishop George D. Snell conducted the obsequies, and the whole ceremony was pathetically impressive. The funeral sermons were delivered by Elders Geo. Wilkins, Carl Marcuson, Joseph A.

Rees and Bishop Snell. Hundreds took a last sad view of the beautiful girl, after which the remains were taken to its temporary resting place, followed by a large class of Sunday school classmates dressed in white, each carrying a bouquet, a wreath or garland of sweet scented flowers, which were afterwards laid bedewed with tear drops upon the little mound that covers the pulseless form of one

ADVENT OF SMALLPOX

Spreads Alarm-Paving the Streets With Natural Asphaltum. Special Correspondence. Vernal, Uintah Co., June 27 .- Not

withstanding our feeling of security against the dread disease, there is one genuine and well developed case of smallpox in Vernal. Mr. W. P. Col. thorp, the head of the firm of Colthorp & Co., is the victim. The case is a tine, and it is confidently expected that it will be confined to the family of Mr Colthorp. There is considerable talk among those easily excited that numerous persons have been exposed and that the approaching Fourth of July celebration, for which quite elaborate preparations are under headway, ought to be abandoned, but there seems to be really little foundation for this excite ment. Unless other cases develop, the probabilities are that the celebration will go on as anticipated. PAVING THE STREETS.

At the meeting of the city council held last evening the contract for the delivery of 1,000 tons of sand asphaltum for paving one of the streets of Vernal was awarded to George A. Slaugh at \$1.19 per ton. The asphaltum needs no preparation whatever further than warming so that it can be easily spread. The paving is no experiment with us either. Vernal has several blocks of well paved walks, the best in the State, and it was all done without a cent of special tax. No special tax will be levied for the work now under progress.

Interesting Conference - Lamanites Receive the Priesthood

Special Correspondence. Koosharem, Sevier Co., June 25.—A Stake Sunday school district conference was held in the Koosharem ward today, and a very interesting time was had. Apostle A. O. Woodruff, Stake President William H. Seegmiller, Elde L. John Nuttall, of the Sunday School board, and D. P. Felt, of the Juvenile Instructor, were present and gave timely instructions. A pleasing feature of the session was the attendance of about twenty-five Intelligent Utdians, who, it is said, take an active part in Sunday school work. anite class is taught by Elder George A. Hatch, who can talk their language. He is assisted by Walker, a nephew of the late old chief Walker. This man is about 40 years of age, quite intel-ligent and talks English fluently; he is an ardent member of the Church, anxious to do all he can to explain the doctrines of the Church.

The Lamanite class was called on for an exercise and an Indian boy about 16 years of age was invited to give a harmonica solo. It was almost pitiable to see the struggle between duty and bashfulness. He begged a white boy to assist him but he also was too backard but the Indian was finally in uced to come forward and do his part The Indian boy's persistency was marked that Apostle Woodruff paid special attention to it in his address and later at his suggestion the boy

At noon, between the meetings, Apostle Woodruff invited all the Indians to meet at the residence of Elder Hatch where the question of who should be appointed as their chief was decided The Indian Walker is very popular with the younger members while one Mokinokitz is the lineal descendant of the old chief so to him the chieftainship was given, and he was also appointed as presiding Elder to take charge of the colony of Lamanites These two Indian brethren were ordained to the office of Elder by Apostle Woodruff and he, through Elder Hatch and Walker, gave the assembled La-manites some very good advice, urging cleanliness, honesty, morality and integrity, special stress was laid on the necessity of their recognizing Mokinokitz as their spiritual as well as their They seemed to emporal leader. joy the honer of being taught by Apos-tle Woodruff, they listened very attentively to all that was said and evincing willingness to do their duty.

DIFFICULTIES WITH SHEEPMEN. Some time ago about thirty armed men from this valley went to the north around and not let them enter the val-ley. Most of the herds went around but three bunches took the county roa through by Driggs, thence east to the summer ranges. It is a very easy mat-ter for all of the sheep to go around and leave the valley for the farmers and ranchers' teams and cows. A case of peculiar and pathetic devotion is reported from Darlington. About ten years ago Miss Belle McMullen, a Darlington girl died in Frankfort, her body being brought to Darlington for Interment. His affliction enlisted her sympa thy and she was quite kind to the boy Her death was an awful blow to him nd for weeks he was inconsolable, ly ng about his home in dumb agony. might be supposed that a person of his frail mentality would in time forget his grief, but Kirkum has not done so Each year, on the anniversary of Miss McMullen's death, he goes from his home in Frankfort to her grave, weary walk of over eighteen miles. He carries with him seasonable flowers, which he places on the mound as a tribute. Last week he walked the distance in the rain and left his flowers as usual. He mourns her death as sin cerely today as he ever did and the grief he displays at her grave is touch-

# The Blood HEALTHY OR DISEASED

When there is a natural and healthy circulation of the blood, the entire quantity, estimated at one-eighth the weight of the body, passes through the heart every five minutes. This rapid flow of the blood through the system prevents the entrance of disease germs and impurities of every description. It filters out all that is not necessary or good for the growth and development of the body and nourishing and strengthening the muscles, tissues, nerves and bones. But, unfortunately, few persons can rightly claim an absolutely pure blood supply and perfect and unpolluted circulation, and in consequence are exposed to innumerable diseases. Contagious Blood Poison, the greatest enemy to mankind, enters the system through the blood, and Cancer, Scrofula, Rheumatism, Catarrh, Eczema, Salt Rheum, Psoriasis, Tetter - in fact the majority of human ailments - are caused by poisons or humors that are engendered and fostered in a sluggish The Blood is the Source and impoverished blood. Sallow complexions and rough, oily skins evidence some constitutional or blood trouble, which salves, lotions, powders nor any external treatment can cure. Diseases that originate in the blood, whether they manifest themselves as ulcers, tumors, itching eruptions, muscular or bone pains, require a tonic and blood purifier such as S. S.
